Effective immediately, the following subcategories should be utilized to code requests which meet the criteria set forth below:

<u>SUBCATEGORY</u>	<u>CRITERIA</u>
SPO1	- NYC - PA (non-OES) - DISC or REDU - Single Issue - Client alleges no notice
SPO3	- NYC - PA (non-OES) - DISC - Failure to Recertify - DISC - Whereabouts Unknown - Single Issue/Notice
SPO2	- NYC - PA (non-OES) - DISC - REDU - Not Coded SPO1 or SPO3 - Can be single or multiple issues/notices as long as all issues meet above criteria

These subcategories should be assigned to applicable requests, regardless of request source - telephone, letter, fax, walk-in.

These are the subcategories that will be utilized to assemble the "Triage" part at 80 Centre Street described in Transmittal #94-19, SPO2 Pilot. Previously only New York City (NYC) reviewers were adding the SPO2 subcategory to those requests without a subcategory of SPO1 or SPO3 for single issue/notice cases involving a NYC PA Discontinuance or Reduction. NYC reviewers should continue to utilize the SPO2 code for NYC single or multiple issue/notice cases involving a discontinuance or reduction other than SPO1 or SPO3 situations. However, if an SPO3 (failure to recertify or whereabouts unknown) issue is requested with any other discontinuance or reduction issue, the SPO2 subcategory should be entered. Upstate intake staff coding NYC requests can now add the SPO2, where appropriate.

These instructions supersede all prior procedures for SPO1, SPO2, SPO3 subcategories.
